No major missing number pattern

Repeated numbers

No repeated number pattern

REPORT DEPTH

251 words of personalised guidance

Read slowly. Highlight what feels accurate. Return to the action points after a few days with a calmer mind.

01

THE FULL BLUEPRINT

A complete reading built from your birth chart, your numerology and the planetary period you are currently in.

YOUR CHART AT A GLANCE

Ascendant in Libra. Moon in Rohini. Sun in the tenth house. A chart weighted towards visible work and public standing, with a strong pull towards partnership in how you make decisions.

02

YOUR CURRENT DASHA

You are running a Jupiter major period with a Mercury sub-period. Jupiter here expands whatever it touches, and in your chart it touches work and reputation. Mercury sharpens that into negotiation, writing and dealmaking.

The sub-period runs for another fourteen months. It is the strongest window you will have this decade for changing what you are known for.

03

CAREER AND MONEY

The tenth house Sun means recognition matters to you more than you admit, and more than money does. Roles that pay well but hide you will not hold you.

04

RELATIONSHIPS

Libra rising makes you a natural mediator and a reluctant decider. In close relationships this reads as patience. Under pressure it reads as avoidance.

YOUR 30-DAY PLAN

Week 1 Write down the one piece of work you want to be known for. Week 2 Have the conversation you have been deferring. Week 3 Put a number on what you want to be paid, and say it out loud once. Week 4 Review what moved. Keep what worked.

--- This is a sample blueprint, prepared to demonstrate the format. Your own is built from your exact birth date, time and place.
